Earlier this week, I received a wonderful letter from a local resident who recounted her recent experience with our TRIAD program.

The writer's husband had just been released from rehab and upon the recommendation of his physical therapist, she called our TRIAD team and asked for a wheelchair:

"Within an hour of my call, (TRIAD) was at my door with a regular wheelchair and a lightweight transfer wheelchair that I can take in and out of the car easily. Since then we have also received a bath chair and a lift recliner, which is very comfortable and helpful . . .

"This program is a wonderful service to the community. I love the way it connects law enforcement with the needs of seniors. The program was an unexpected and heart-warming surprise to me. . . I hope nothing interferes with future funding of this valuable service. Thanks to you and everyone involved."

The entire HSO staff is proud to serve the people of Hampshire County and we are most appreciative of these kind words.
